

Involving People

The Joint Commissioning Team would like to know what you think and feel about the issues that affect people who have learning disabilities.

The Joint Commissioning Partnership Board decides where money is spent on services in social care and health services for people with learning disabilities.

Your thoughts and ideas will help us make better choices for services that are needed in the future.

We would like to hear from people with learning disabilities and family carers.

How you can get in contact

- **If you have learning disabilities and live in Stevenage, North Herts, East Herts, Broxbourne, Welwyn Hatfield or St Albans areas please contact:**
